In Re: Patent Term Extension
Application for
U.S. Patent No. 4,797,413

#A
24

NOTICE OF FINAL DETERMINATION

A determination has been made that U.S. Patent No. 4,797,413, which claims the human drug product TRUSOPT®, is eligible for patent term extension under 35 U.S.C. § 156. The period of extension has been determined to be 1,233 days.

The period of extension has been calculated using the FDA determination of the length of the regulatory review period published in the Federal Register of May 14, 1996 (61 Fed. Reg. 24317). Under 35 U.S.C. § 156(c):

$$\begin{aligned}\text{Period of Extension} &= \frac{1}{2} (\text{Testing Phase}) + \text{Approval Phase} \\ &= \frac{1}{2} (1,736) + 365 \\ &= 1,233 \text{ days (3.4 years)}\end{aligned}$$

Since the regulatory review period began March 11, 1989, after the patent issue date (January 10, 1989), the entire period has been considered in the above determination. No determination of a lack of due diligence under 35 U.S.C. § 156(c)(1) was made.

Neither the 14 year exception of 35 U.S.C. § 156(c)(3) nor the limitations of 35 U.S.C. § 156(g)(6) operate to reduce the period of extension determined above.

A single request for reconsideration of this final determination as to the length of extension of the term of the patent may be made if filed within one month of the date of this notice. Extensions of time under 37 CFR § 1.136(a) are not applicable to this time period. In the absence of such request for reconsideration, the Commissioner will issue a certificate of extension, under seal, for a period of 1,233 days.

Upon issuance of the certificate of extension, the following information will be published in the Official Gazette:

U.S. Patent No.	:	4,797,413
Granted	:	January 10, 1989

U.S. Patent No. 4,797,413

Arlington, VA

¹ The term of the patent subsequent to the expiration date of U.S. Patent No. 4,677,115 has been disclaimed. U.S. Patent No. 4,677,115 issued June 30, 1987 from an application that claimed priority under 35 U.S.C. § 120 to an application filed on December 12, 1984. Accordingly, the original expiration date of U.S. Patent No. 4,797,413 is December 12, 2004.
